

I love XM radio. If I chose to PURCHASE XM radio in order to listen to what I want to listen to, why is that a problem? If I want to buy the XM radio service or cable TV service, why not? America offers choice. That's the reason we are great. Please don't take my choices away and try to force me to listen to AM or FM radio. I won't. I'll just play CDs that I PURCHASE, not download for free. There's no free lunch but there should be freedom to listen and watch what we pay for.
